EXPERIENCE

BHARTIYA TECH IT SOLUTIONS

Mern Stack Developer Intern

Noida, UP

July 2023 – Sep 2023

- Spearheaded project-related database development using MongoDB, Mongo Compass, and GitHub Desktop
- Effectively implemented API testing procedures with Postman to ensure seamless integration
- Played a pivotal role in designing and implementing server-side logic, ensuring seamless integration with the front-end
- Demonstrated proficiency in writing clean, efficient, and maintainable HTML, CSS, JavaScript, NodeJS, ReactJS and MongoDB code, adhering to best practices for code readability, maintainability, and performance optimization

SMART INDIA MULTI MANAGEMENT INSTITUTE

Frontend Developer Intern

Remote

Apr 2022 – July 2022

- Crafted user-friendly web interfaces that prioritize user experience, accessibility, and responsiveness across various devices and platforms
- Demonstrated proficiency in writing clean, efficient, and maintainable HTML, CSS, and JavaScript code, adhering to best practices for code readability, maintainability, and performance optimization
- Possessed a better understanding of web development principles and methodologies, including responsive design and performance optimization techniques

SIDE PROJECTS

Ecommerce Application

- Ecommerce application that allows users to shop online, browse product catalogs, add items to a cart, and complete purchases
- It also provides payment processing, shipping, and order management capabilities

Expense Tracker

- App designed to help individuals effectively monitor and manage their expenses
- Allows users to track their spending, categorize transactions, and view analytics
- Provides proper authentication to protect user data and prevent unauthorized access

Library Management System

- The library management system allows users to browse and search for books, check out and return books, and manage their library account
- It also provides features for library staff to manage the library's book collection and user records

ATM Interface.

- Core Java (compiler-based)
- Used strong error handling and validation
- User login and account creation
- Deposit, withdrawal, and mini statements

SKILLS

Languages: Java, JavaScript, HTML

Framework: Node.js, Express.js, React.js

Databases: MongoDB, SQL

Tools: MySQL Workbench MongoDB Compass, GitHub Desktop, Visual studio Sublime Text, Eclipse

Coding: Data Structures and Algorithms using Java, Problem Solving

ACHIEVEMENTS/AWARDS

Coding Ninjas(Codekaze): 1st rank in College and 1140 global rank among 100,000+ participants.

LeetCode: LeetCode Rating 1706, top 12% globally.

LeetCode: Ranked 1595 out of 27539 participants in Weekly Contest 361.
